MSU/HSS/CRS0018-Certificate in Veterinary Clinical Assistance

Course Description

On completion of the course, the candidate will be able to provide basic animal care, assist veterinarians during surgery, conduct lab tests, and support hospital management. They will help with breeding, welfare, disaster management, and public health services, including care for wild and captive animals.

Personal Attributes

Candidate must have skills like attention to detail, empathy for animals, and strong communication to work effectively in veterinary settings. They should be patient, organized, and capable of handling emergencies. Adaptability, problem-solving, and teamwork are essential for assisting veterinarians, managing clinics, supporting animal welfare, and providing care in various environments.
